

WHAT TO KNOW ABOUT CARB

What does CARB stand for? California Air Resources Board

What are CARB's Small Off-Road Engine (SORE) regulations?

California is lowering the exhaust and evaporative emission standards for spark-ignition gasoline engines that are 25 HP (19kW) or below.

Does this affect only gas-powered engines?

Yes, diesel is not affected by these new SORE regulations.

What Mi-T-M equipment is affected?

Pressure washers, generators, air compressor/generator combination units, air compressor/generator/welder combination units, inverter generators and ChoreMaster open-frame generators.

What Mi-T-M equipment is not affected?

Diesel units, electric units, air compressors, trash pumps and water trailers.

When do the regulations take affect?

To Be Determined — estimated first half of 2024, exact dates will be communicated once identified.

What is Mi-T-M doing in regards to these new CARB regulations?

Mi-T-M is working diligently with regulatory authorities to determine any available avenues for our equipment affected as well as closely monitoring the implementation timeline of these regulations.

How do CARB regulations affect my business with Mi-T-M?

These regulations may affect your current Mi-T-M equipment line-up since certain models will no longer be available to California. Make sure to contact your Mi-T-M Sales Representative to review your Mi-T-M equipment models.

What do I do if I have Mi-T-M equipment, in stock, that I think may be affected by CARB regulations?

Any Mi-T-M equipment that is affected by the CARB regulations will have a box label and a sticker on the unit that indicates "Not for Sale in California." If you are uncertain, please contact our Sales Support Department at 800-553-9053 to confirm.

Can I sell products in 2024 that were produced in 2023?

Yes, CARB does not regulate the use of existing compliant equipment.

Can I sell products in 2024 that were produced in 2024?

Yes, but only either those produced to the new CARB standards or produced with a pre-2024 engine without a separate fuel tank.

Can I sell products produced in 2024 to any of the other 49 States?

Yes
